FOR THE ASSOCIATE IN ARTS AND ASSOCIATE IN SCIENCE DEGREES

Students have two options in earning an AS or AS degree. They may decide on a degree in general pre-baccalaureate studies, which allows them a wide choice of courses and an opportunity to explore many subject areas, or they may decide on a FOCUS, which allows them to explore one field of study in more depth. A Focus is not a major or a minor, but a concentration of related courses. Focus requirements are 12-21 hours, and each must include at least one 200 level course or one course with appropriate prerequisites. If students plan to transfer after earning their AA or AS degrees, they may fulfill a number of their pre-major requirements by choosing to have a Focus. However, obtaining a Focus does not mean that a student has fulfilled all pre-major requirements for a four-year degree at the University of Kentucky or elsewhere.

Advising Note for Students Planning to Transfer to a Public University in Kentucky

Under the Council on Postsecondary Education's General Education Transfer Policy, students who complete all or parts of the Associate in Arts or the Associate in Science degree requirements listed previously will be able to transfer blocks of general education credit under the following conditions.

Fully Certified

Students must: complete a general education program of 48 semester hours, including the 33- hour Core Transfer Component; receive an approved AA or AS transfer degree or earn 60 hours of undergraduate credit; and hold a cumulative grade point average of 2.0 or higher. You will need to earn additional general education credits if the receiving institution's general education program requires more than 48 hours.

Core Component Certified

Students must: be in good academic standing, and complete the Core Transfer Component. You will need to fulfill the remaining general education requirements of the receiving institution if not satisfied through the Core Transfer Component. The Core Transfer Component Certification consists of a total of 33 credit hours in five academic categories:

Communications -- 9 hours, 6 in written communication and 3 in oral Humanities -- 6 hours (e.g., fine arts, philosophy, history, foreign language)
Behavioral/Social Sciences -- 9 hours (e.g., psychology, sociology, economics)
Natural Sciences -- 6 hours (e.g., biology, physics, geology)
Mathematics -- 3 hours, which must include, at a minimum, college algebra

Category Certified

Complete one or more of the five categories in the 33-hour Core Transfer Component. You must fulfill all the remaining general education requirements of the receiving institution.

Special Advising Note for University of Kentucky Transfers

Students transferring to the University of Kentucky are advised:

- (1) that they must meet the UK Foreign Language requirement. This requirement can be satisfied through completing two years of foreign language in high school or by completing any two-semester sequence (at least six hours) in a single foreign language in college.
- (2) that they must complete a cross-cultural course.
- (3) that UK has established a Graduation Writing Requirement (pg. 35). Students who are General Education certified who transfer to UK will have to fulfill this additional requirement. Please see the UK *Bulletin* for more information.

Students are also advised that UK has an Inference-Logic requirement (any calculus course or STA 200 plus PHI 120 or PHI 320) which must be completed before graduation.
