## Assessment, Improvement, Measurement (AIM) Report: 04/03/2013

Plan Year: 2012-2013

Unit: Health Information Technology

Coordinator(s): Sharon Breeding, Karman Wheeler, Jenny Jones

Reviewer: Jenny Jones

Objective or Outcome	Measure(s)		
	Measure Text	Achievement Target	Assess Month
SLO 1 - Students will be able to evaluate the content, structure, collection, maintenance and dissemination of health care data and how these components relate to record systems and documentation standards. (TC #1)	Specific examination questions related to documentation structure. (Fall)	Within the HIT 100 course, 13 students will be able to answer questions on the final exam about the structure of the health care data.	December
SLO 2 - Students will demonstrate the ability to think abstractly, reason logically and apply problem solving skills in the practice of medical coding.	Simple case scenarios (one sentence disease situations).	75% of the students will earn at least an 80% on these case scenarios.	December
SLO 3 - Students will learn independently using appropriate strategies and resources in the healthcare.	A written project requiring use of websites and other search strategies to access healthcare information.	HIT program requirement is a minimum of 80%. Based on creativity, processes involved, and ending result.	Мау
