

Engineering Technology

Engineering Technology is the link between engineering design and machine operation. Engineering Technicians work with Engineers in the design progress prototyping systems and testing designs. They work with existing systems during and after production to make sure the manufacturing process is working properly and troubleshoot and repair of systems in the field. We offer specializations in Industrial Engineering, Electronic Communications, and Electronics Engineering.

Bluegrass Occupational Outlook

Career	Average Wage (2010)
Engineering technician	\$22.02

Degrees Offered

The following degrees are offered for this program at the Danville and Leestown campuses:

- Associate in Applied Science (A.A.S.)
- Diploma
- Certificate
