Course grades of all students enrolled in selected courses during the 2011-2012 academic year (follow-up and consolidation of Bi-Term and Online Studies). Data is presented for different instructional modes (online, hybrid, in-person) and session lengths (regular or bi-term). The percentage of E, F, W, and MP grades have been calculated for each instructional mode and session length.

N/A = Course not offered during 2011-2012 academic year for a particular instructional mode or session length, or total enrollment was less than 10 students (this may cause the total number of grades to differ for the same class).

Highlighted courses had a large number of "I" grades that may skew results.

Course grades of all students enrolled in selected courses during the 2010-2011 academic year (follow-up and consolidation of Bi-Term and Online Studies). Data is presented for different instructional modes (online, hybrid, in-person) and session lengths (regular or bi-term). The percentage of E, F, W, and MP grades have been calculated for each instructional mode and session length.

Courses highlighted in blue indicate a difference in success rates of at least 10 percentage points between two or more instructional modes (online, hybrid, and in-person). Highlighting only includes comparisons made between instructional modes, not between a particular instructional mode and the class total. Courses highlighted in red indicate a difference in success rates of at least 10 percentage points between session lengths (regular and bi-term). Highlighting only includes comparisons made between session lengths, not between a particular session length and the class total. If the total course grades for a course were less than 40 for a particular instructional mode or session length, comparisons were not made (sample was too small for comparisons - no highlighting).

N/A = Course not offered during 2010-2011 academic year for a particular instructional mode or session length, or total enrollment was less than 10 students (this may cause the total number of grades to differ for the same class).

¹GEN 102 replaced GE 101

²MA 108R replaced MA 108 in Spring 2011.

³POL 101 replaced PS 101

⁴PSY 110 replaced PY 110

⁵RDG 30 replaced DRE 30
