Fall to fall retention rates were calculated by taking the percentage of all BCTC students enrolled in the fall that returned the following fall semester. Graduates were accounted for in calculations, but transfer students were not. As such, percentages may underestimate the true fall to fall retention rates of BCTC students.

<sup>1</sup>All BCTC students were included in calculations regardless of classification (e.g., freshmen, sophomore, etc.) and academic load (i.e., full-time, part-time). As a result, retention rates reported here may differ from those reported by external agencies (e.g., IPEDS).
