The Pharmacy Technician program is a two semester program ending with a **certificate** in Pharmacy Technician II. Its purpose is to prepare the student for a successful career as a pharmacy technician by:

1. Providing didactic and laboratory experience to allow the student entry into the job market at a higher level of competency than on-the-job training can provide.
2. Offering real experience during the externship process.
3. Preparing students for the Pharmacy Technician Certification Board.
4. Stressing the significance of comprehension, communication and skill based competency.
