

Getting Started Guide

Instructors & Advisors

Version 2.0

Welcome to Starfish®

Starfish gives you a convenient way to keep track of your students – raising flags when you observe a pattern of behavior that concerns you, ensuring that the people on campus who can intervene are aware. It also allows your students to easily book an appointment with you or someone else who can help.

Getting started is easy. Accessible through your LMS or your SIS System, Starfish will automatically display all students that you have been assigned or are enrolled in your courses. From there, you can begin raising flags about students, review flags that have been raised about your students, and provide additional information

This guide highlights the steps for completing four common tasks in Starfish:

1. Raise a flag on one of your students
2. Respond to a Progress Survey for students in your courses
3. Set up Office Hours
4. Setup your profile to help students connect with you

That's it. Simple for you. Empowering for your students.

1. **Click on the Students navigation item** to see your list of students.
2. **Find the desired student** by searching for their name.
3. **Click on the student's name** to bring up the student's folder. Note: Anywhere you see a student's name as a link it will take you to his or her folder.
4. **Click on the Add: Flag option.** A list of flags that can be raised and viewed by you is displayed.
5. **Select the appropriate flag,** from the drop down list, enter comments in the **Comment** box, then click the **Save** button

The appropriate individuals will be automatically notified.

Respond to a Progress Survey for students in your courses

Flags can also be raised by submitting a progress survey. You will receive an email reminder when there is a new survey for you to complete. Each individual survey presents you the roster of students for one course.

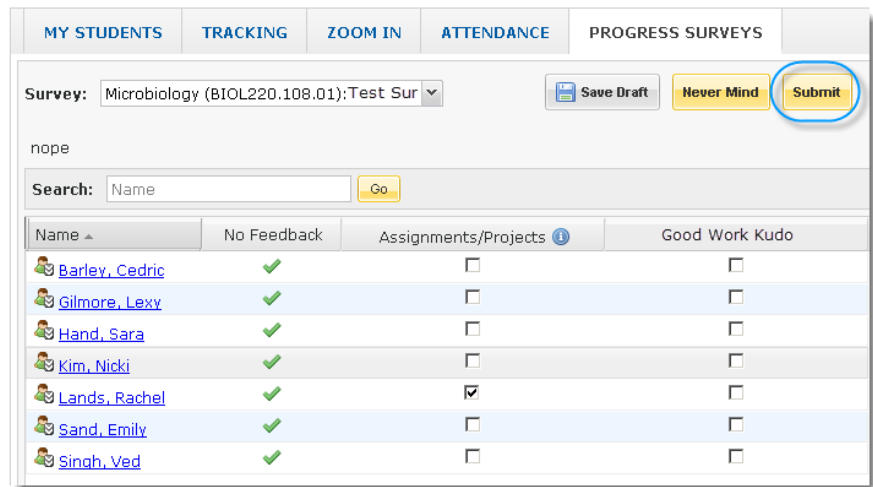

1. **Select the link to a progress survey** from your Starfish Dashboard (or select **Students** from the top navigation, then click the **Progress Survey** tab).

Your progress survey opens, listing your student roster for the course, and specific flags for you to consider.

3. **Click the Submit button** when you are finished providing feedback. (Use Save Draft to save your work without submitting. **Note:** Once you have submitted the survey you will not have an opportunity to edit it.

Starfish will raise the flags you selected.

Note: You may be asked to submit more than one course survey if more than one of your courses has been included in the survey plan for your institution. They will be listed in the drop-down menu on the Progress Surveys tab.

Setup Your First Office Hours Block
