

# Respiratory Care Program Uniform

You will not be going into the clinical setting until a month into the program so you have plenty of time to get your uniform together. However, to provide you a good idea as to the uniform we have provided the guidelines below. We will be going over the uniform in more detail during the orientation.

Below you will find information about the scrubs. Realizing that it is important for everyone to appear "uniform", and that you will only have clinical one day per week in the first semester, it is highly recommended that you buy your first set of scrubs from Uniform Advantage. Below you will find ordering information.
