

## We're Getting a New Look on September 23!

### The Biggest Change

MyPath has a new home in the navigation! You asked for it and it's here. No more clicking on Current Students or Employees and then searching for the MyPath link, it's right there in the top left-hand corner of your desktop.

### Where'd Everything Else Go?

Don't worry, we didn't remove the links to the old navigation items, we just moved them to 'Quick Links.' If you select Quick Links in the navigation, you'll get a drop down that will let you choose Current Students, Faculty & Staff, Parents, Community or the Answer Center.

### What About on a Mobile Device?

Your mobile experience won't change that much. When you select the hamburger menu (three lines) in the upper right-hand corner of your device, the blue navigation screen will appear with the navigation links to the site. MyPath will now be one of the main links, and the others will live under Quick Links.
