

## OFF-CAMPUS Access through the KYVL Portal

### Proxied Access

Go to the link to “**Kentucky Virtual Library**” at the BCTC Library Service’s “Find an Article” web page.

After clicking on that link, you will be prompted to enter your Peoplesoft login information. (the same username/password you use for your BCTC KCTCS email)

You will then be in the KYVL Portal, where you can search databases for library resources shared by KYVL-participating libraries in the state of Kentucky.

### Alternate Access

For alternate off-campus access to KYVL through the KYVL Portal, you can also contact a BCTC librarian to obtain the current KYVL Portal login and password (it changes several times a year).

Then, click on the link to “**Kentucky Virtual Library – Alternate Access**” on the BCTC Library’s “Find an Article” web page.

Type in the KYVL login and password when prompted

You will then be in the KYVL Portal, where you can search databases for library resources shared by KYVL-participating libraries in the state of Kentucky.

### **Please Note:**

The KYVL Portal is a funded resource with many useful databases for students. However, KYVL does not have all of the databases you have access to as a student. For example, JSTOR, Ebook Central, Academic OneFile, and ARTstor cannot be accessed via KYVL.

For BCTC off-campus access to databases not in KYVL, please go to the BCTC Library Services web pages and access the other databases from there (off-campus, you will need to use your Peoplesoft login information)
