

MAT011 Transitional Algebra - Emporium Model

MAT011 TRANSITIONAL ALGEBRA is a developmental math course taught using a modified emporium model.

- The course contains the competencies for ALL developmental mathematics
- Separated into 3 BLOCKS: Block I ≈ MAT055
 Block II ≈ MAT075
 Block III ≈ MAT085.
- Start in the BLOCK best representing current level based on Placement Test and/or prior course work.
- Continue in MAT011 working through BLOCKS at flexible pace over one or more semesters until specific prerequisites completed
- Receive *STEP Credit* for completed course work and free KYOTE Placement Testing.

Key features MAT011 include:
