

Connective Tissues Proper

Fill in the following table.

Tissue	Cell Types ¹	Visible Fibers ²	Distinctive Features ³	Functions	Locations
Areolar (Loose) CT					
Adipose Tissue					
Reticular CT					
Dense Regular CT					
Dense Irregular CT					
(Dense Irreg.) Elastic CT					

¹ Cell types that are present in tissue may include: adipocytes, fibrocytes/fibroblasts, lymphoblasts

² Collagen, elastic, and/or reticular

³ Any features that would be helpful in remembering this tissue
