

# **WELCOME TO BCTC!!**

## **Employability Skills - Job Search Process Experiential Education - Co-op - Internship - Practicum**

**Cinderella and Prince Charming live on only in our childhood fairy tales. Face it, you're going to be working for the rest of your life, so you've got to make the best of it!**

**Did you know that employers take only 15 to 60 seconds to review your résumé before deciding whether or not to interview you? No interview; definitely, no job. At Student Employment Services, you will be able to learn how to write a résumé for today's job market... You'll also be able to learn more about employability skills from creating a résumé to research, references, and interview techniques that will help get you the job.**

**Co-op/ Internship/Practicum are all part of Experiential Education and are super ways to get 'real world work experience' before you graduate from college! You get the college credits, the work experience, and an excellent entry on your resume!**

**Why should you be concerned about the jobs that you take? Right now, a job is a way to pay for car insurance, rent, or pizza and milk. :-D) After you graduate, work is the primary way that you will take care of your family. We know that if you are unhappy and frustrated at work, it will affect your family life most of all.**

**I will be happy to help you with part-time or full-time employment, employability skills, the job search process, and doing Co-op, Internship, or Practicum while you're here . Come see me in OB 103D... we'll talk.**
