Additional Information
<p>The Library Information Technology certificate is available completely online.</p> <p>All of the LIN and LIT courses are designed as stand-alone courses which can be taken in any order. LIT 115 Introduction to Reference Services is the first core requirement in the track and is taken by all students. However, the other LIT courses do not build upon this course, and therefore it does not necessarily have to be taken first in order for students to be successful in the other LIT courses.</p>
